

MMConnect Africa — Founder's Opening & Website Copy

PART 1: FOUNDER'S OPENING — INDUCTION DECK

This is the introductory message from the Founder to be placed at the top of the Employee Induction Deck, before "Who We Are."

A Message from Our Founder

To every person reading this — welcome. And thank you.

Not just for joining a company. For joining a cause.

MMConnect Africa exists because we refused to wait. We looked at a continent of 1.4 billion people — the youngest, fastest-growing population on earth — and we saw what was missing. Not ambition. Africa has never lacked ambition. What was missing were the systems, the platforms, the infrastructure that turns ambition into progress.

So we decided to build them.

We are building an organization that serves Africa in ways that are long overdue — accessible finance for the market vendor who has never had a credit line, reliable power for the business owner who loses hours every day to blackouts, seamless digital experiences for the traveler who deserves better than broken systems, and sustainable solutions for a continent that must grow without repeating the world's mistakes.

This work is bigger than any one of us. It is bigger than titles, bigger than departments, bigger than quarterly targets. We are building infrastructure for a generation. We are creating pathways that did not exist before we drew them.

And here is what I need you to understand: **if we don't do this, no one will.**

Not because others don't care. But because this particular combination of people, in this particular moment, with this particular fire — that is us. We are the ones we have been waiting for.

Every role in this organization matters. The engineer writing code at midnight. The field

agent onboarding vendors in the market. The finance team making sure every shilling is accounted for. The operations lead solving problems before they become crises. You are all building something that will outlast us.

This is not just a job. This is your opportunity to leave a legacy — in Africa and in the world. The solutions we build today will serve millions tomorrow. The systems we create will become the backbone of how people access money, power, travel, and opportunity across this continent.

So move fast. Take ownership. Hold yourself and each other accountable. Be relentless in execution and generous in collaboration. Build with pride, because what you are building matters.

Welcome to MMConnect Africa. Let's build something the continent will remember.

— *Mwamvita Makamba, Founder*

HOMEPAGE

Hero Section

Headline: **We Build What Africa Needs Next**

Subheadline: MMConnect Africa is a technology group creating the platforms and infrastructure that power everyday life — from finance to energy, mobility to sustainability.

CTA Button: Explore Our Ecosystem

Mission Statement Block

Connecting the dots to Africa's progress.

Africa doesn't need more observers. It needs builders. MMConnect Africa operates across finance, technology, lifestyle, and energy — deploying solutions that reach the people and businesses traditional systems have left behind.

Headquartered in Dar es Salaam, with commercial presence in Johannesburg, Accra, Lagos, and Nairobi.

Our Ecosystem — Overview Cards

Kuza Capital — Inclusive Finance Accessible loans and financial services for market vendors, boda boda riders, SMEs, and salaried individuals. Digital disbursement. Flexible repayment. Real financial inclusion.

Tiketika — Lifestyle & Booking Tanzania's all-in-one platform for event ticketing, travel booking, and lifestyle experiences. Web, mobile, USSD, and WhatsApp — one platform, every channel.

Jibusti — Power & Energy On-the-go power bank rentals and backup energy solutions for individuals and businesses. Locate. Rent. Charge. Return. Stay powered.

MMCarbon — Climate & Sustainability Carbon management, offset solutions, clean energy initiatives, and environmental project development. Building a sustainable future from the ground up.

Impact Statement

We don't build for the sake of building. Every platform we launch, every loan we disburse, every ticket we issue, every power bank we deploy — it reaches a real person solving a real problem. That's the standard.

About the Founder — Brief

MMConnect Africa was founded by Mwamvita Makamba, a Tanzanian entrepreneur and pan-African leader with over 15 years of experience leading technology and telecommunications companies across Sub-Saharan Africa. Guided by the principle that sustainable business and social impact are not opposites but partners, she built MMConnect to create the infrastructure Africa's next chapter demands.

ABOUT PAGE

Hero

Headline: **We Are the Ones We've Been Waiting For**

Our Story

MMConnect Africa was born from a simple conviction: Africa's transformation will be built by Africans. Not as a slogan — as a business plan.

We are a technology-driven group headquartered in Dar es Salaam, Tanzania, with commercial hubs across the continent. We operate at the intersection of finance, technology, energy, and sustainability — building the platforms that connect people to the services they need and the opportunities they deserve.

Our work spans four interconnected ventures, each designed to solve a specific gap: Kuza Capital makes finance accessible. Tiketika makes booking seamless. Jibusti makes power reliable. MMCarbon makes growth sustainable.

We move fast. We take ownership. We build with the end user — not the boardroom — in mind.

Mission & Vision

Our Mission To build and deploy innovative, sustainable solutions that improve access to finance, technology, and essential services across Africa.

Our Vision To become a leading technology group in Africa, enabling people and businesses to thrive through innovation and accessibility.

Our Values

Innovation — We build, test, and improve continuously. We don't wait for perfect.

Empowerment — We create solutions that give people real opportunities to grow.

Sustainability — We think long-term — financially, environmentally, and socially.

Accountability — We own our work and deliver on what we commit.

Our Presence

Dar es Salaam (HQ) · Johannesburg · Accra · Lagos · Nairobi

KUZA CAPITAL PAGE

Hero

Headline: **Finance That Reaches Everyone**

Subheadline: Kuza Capital is MMConnect Africa's inclusive finance platform — providing accessible, flexible loan solutions to the individuals and businesses that power Africa's economy.

Who We Serve

- **Market Vendors** — Working capital for daily business operations
 - **Boda Boda Riders** — Asset financing for tires, licenses, and equipment
 - **SMEs & Corporates** — Business financing and liquidity support
 - **Salaried Individuals** — Short-term and structured personal loans
-

What We Offer

Microloans and working capital financing. Asset-based financing models. Digital disbursement via mobile money and banking channels. Flexible repayment structures aligned to how people actually earn.

How It Works

1. **Onboarding** — Customers are identified and onboarded through agents, partnerships, or digital channels
 2. **Assessment** — Eligibility and loan structure are determined
 3. **Disbursement** — Approved loans are sent digitally via mobile money or bank transfer
 4. **Repayment** — Structured schedules aligned to income — daily, weekly, or monthly
 5. **Support** — Ongoing tracking, engagement, and customer support through field and CX teams
-

TIKETIKA PAGE

Hero

Headline: **Beyond Booking**

Subheadline: Tiketika is the all-in-one digital platform for booking travel, events, and lifestyle experiences across Tanzania.

What We Do

Event ticketing and access control. Travel bookings — flights, buses, hotels. Instant QR-based digital ticket generation. Multi-channel access via web, mobile app, USSD, and WhatsApp. Integrated payments through M-Pesa, Airtel Money, bank cards, and more.

Who We Serve

Local and international travelers. Event attendees and football fans. Businesses and corporate clients. Event organizers and venue partners.

How It Works

1. **Discover & Book** — Browse events, travel, and experiences through any channel
 2. **Pay** — Complete payment via mobile money, cards, or digital wallets
 3. **Receive** — Get an instant digital QR ticket
 4. **Enter** — Tickets scanned and validated at entry points
 5. **Report** — Full transaction tracking, reconciliation, and performance analytics
-

JIBUSTI PAGE

Hero

Headline: **Power On**

Subheadline: Jibusti is MMConnect Africa's energy solution — providing accessible, reliable power for individuals and businesses through portable charging stations and backup energy systems.

What We Offer

Power bank rental stations in high-traffic locations. Home and business backup power units. Scalable commercial energy solutions. Solar-compatible and energy-efficient systems.

Who We Serve

Urban consumers who need to charge on the move. Small businesses that need backup power. Corporates and event organizers. High-traffic venues — cafés, stations, public spaces.

How It Works

1. **Locate** — Find a nearby Jibusti station
 2. **Rent** — Grab a power bank through a quick digital or assisted process
 3. **Charge** — Use on the go — no fixed location needed
 4. **Return** — Drop it off at any Jibusti station
 5. **Monitor** — Usage and station activity tracked for availability and performance
-

MMCARBON PAGE

Hero

Headline: **Sustainable Growth. Real Impact.**

Subheadline: MMCarbon is MMConnect Africa's sustainability arm — developing solutions that address climate change and environmental impact at scale.

What We Offer

Carbon management and offset solutions. Sustainable energy and efficiency initiatives. Environmental project development and support. Climate-focused innovation and strategic partnerships.

Who We Serve

Communities and environmental stakeholders. Agricultural and forestry sectors. Businesses pursuing sustainable operations. Partners across the carbon and clean energy ecosystem.

LEADERSHIP PAGE
